

Infection Diagnosis Workshop

Organized by:
University of Tsukuba
Biotechnology Center of HCMC

Venue: Biotechnology Center of HCMC, Vietnam
Dates: August 26 - 29, 2024 (4 days)

A practical training course for biomedical research scientists. Participants will learn the principles and techniques to identify and characterize pathogenic bacteria from patient and environment samples. In addition, special seminar on "Biosafety and Ethics in Life Science" will be presented. This course will be conducted by Institute of Medicine, University of Tsukuba, Japan. The course is designed for undergraduate students and is open to students to Faculty, staff and students of overseas partner organization of the University of Tsukuba (<https://www.bgi.sec.tsukuba.ac.jp/en/partner-organizations/>). Student will make an oral presentation on the final day.

Course schedule and online application form will be available at:
<http://www.tsukubamed.org>.
Deadline: July 30, 2024.
